United States Not Willing to be Party to a Threat.

CONCURRENCE OF THE POWERS.

The German Charge Much Gratified With the Assurances Received from Secretary Hay, and Thinks the Solution of the Chinese Puzz'e Near at Hand.

(By Associated Press.)

WASHINGTON, October 22.-It was au thoritatively stated to-night that the United States Government views with distinct favor the principles enunciated in the Anglo-German agreement relating to China, and that a formal response to that effect will be made at an early day to the invitation extended to this Government to accept the principles of the agree-

ment.

The German Charge d'Affaires, Count DeQuadt, had a conference with Secretary Hay this afternoon.

Mr. Hiay expressed his satisfaction at what had been done, saying he felt it to be in complete harmony with the policy this Government had pursued.

Count DeQuadt was gratified with these assurances, and left with the belief that there was such a harmonious understanding on the general principes involved that ing on the general principles involved that oncurrence of the Powers was near at

The American reply is likely to be in the form of a note of approval rather than any formal adherence to the alliance.

SERIOUS QUESTION.

About the only serious question which has arisen as to the American reply was ment. This states that in case of another Power making use of the compilications in China in order to obtain territorial advan-tages, Germany and Great Britain reserve right to reach a preliminary und ine right to reach a preliminary under-standing on the eventual step to be taken for the protection of their interests. This is open to the construction of being a threat against other Powers, and there was no desire on the part of officials here give American adherence to anything in

the nature of a threat.

It is probable, that the American reply will not go beyond accepting the principle that Germany and Great Britain have a right to agree between themselves as to their eventual course. But there is not likely to be anything which will commit this Government to accept this eventual agreement.

Correspondence With French Govern ment Made Public. (By Associated Press.)

WASHINGTON, October 22.—The State Department to-day made public the cor-respondence which has taken place beween itself and the French Governmen since the original French note respecting China. of the United States note is the closing suggestion that the Powers bind them-selves again to preserve China's territorial entity, and to maintain the "open door," exactly the objects aimed at in the British German agreement, or alliance, which was made public last week. While this note by Secretary Hay bears date of October 19th and the British-German agreement is assigned the date of October 18th. ment is assigned the date of October 16th the action of this Government was taken in ignorance of the agreement, and it is entirely possible that it may have been the means of bringing about a disclosure

"The essential thing now is to show the Chinese Government, which has declared itself ready to negotiate, that the Powers are animated by the same spirit; they are decided to respect the integrity of China and the independence of its Gov ernment; but that they are none the les resolved to obtain the satisfaction to which they have a right.

"In this regard, it would seem that if the proposition which has been accepted as the basis of negotiations were communi-cated to the Chinese plenipotentiaries by the ministers of the Powers in Pekin, or in their name by their dean, this step would be of a nature to a happy influence upon the determinations of the Emperor of China and of this Government.

TEDDY REPLIES TO INTERRUPTERS

The Governor Traveled Eighty-Nine Miles-and Made Numerous

> Speeches. (By Associated Press.)

KINGSTON, N. Y., October 22.—Governor Roosevelt finished the first day of his flying campaign through the State in Kingston to-night, after traveling eightynine miles and making eight speeches, the ongest being at Newburgh and Kingston. At the former place, the home of a Re-publican candidate for Governor, he talked a vast assemblage, having to speak in wo places. Spectators interrupted the speaker with questions, in every instance

eceiving a reply.

At West Nyack, a spectator shouted "hurrah for Bryan" and Mr. Roosevelt replied, Why don't you hurrah for Altgeld and Aguinaldo?

Another spectator called out "What about the ice trust?" and he answered: "This election will be decided by the patriots and men of sense in the country who outnumber the junker shouters of

your type. The ice trust will be attended to in a proper legal way." A man in the crowd at Newburgh said, in a low tone of voice: "Why did you call Democrats cowards and dishonest?"

Rossevelt heard him and flung back quickly this characteistic reply: "It's a lie. I never said such a thing. It is Dem-ocrats, good Democrats, who will swell our majority".

SHOUTED FOR BRYAN. Towards the end of his remarks at Newburgh the Governor was interrupted a number of times by some shouts of "What is the matter with Bryan?" "Down with the trusts." Governor Roosevelt remarked; "That

gentleman has all the symptoms of a Bryanite," which sally was greeted with laughter and applause. Then walking over to one side of the platform and speaking directly towards the point from which the shouts arose, the Governor said: "You look like one of those men who work exclusively with their mouths. What do you mean to do with the cotton-bale trust of Mr. Jones, or the ice trust of Mr. Croker?"

The largest labor demonstration ever held in this city took place to-day when nearly seven thousand miners paraded the streets. In a carriage at their head rode President Mitchell, who received an enthusiastic ovation all along the line of march.

President Mitchell reviewed the parade at the end of the route, after which a mass-meeting was held, at which President Mitchell was the principal speaker. He said the strike was in such a peculiar position that it was hard to outline just what the result would be. He believed the time was not far distant, however, where every mine would be in operation and that the men now had practically won the strike.
